PROJECTS

Personal Portfolio

Created using HTML, CSS and JavaScript, it showcases my personal details,Skills and Successes. Featuring and engaging intro, Project displays, and interactive elements like animations and a contact form, it emphasizes technical abilities. With a responsive design, it strives to impress employers and collaborators, reflecting my dedication to self-branding and web development. Notably, this website was hosted.

E Commerce Website

The E-Commerce Website project aims to create a fully functional online shopping platform using a stack consisting of HTML, CSS, Vanilla JavaScript, Python, Django, MySQL, and Bootstrap. This project will provide users with a seamless and secure online shopping experience, allowing them to browse products, add items to their cart, make payments, and manage their accounts.
